

# Near Field Communication (NFC) Field Tool 4.0.39 Release Notes

Release Date: March 6, 2025

This release note document describes the resolved issue in Near Field Communication (NFC) Field Tool 4.0.39.

The Itron NFC Field Tool application is a tool designed for reading, testing functionality, and maintaining Intelis wSource (Lora and NB-IoT) and Cyble 5 devices. This tool is based on the NFC protocol and requires physical access to the meter.

NFC facilitates:

- Display of the device's data
- Activation of devices
- Use of advanced commands to activate specific modes on the meter
- Data extraction

## Upgrading

NFC Field Tools 4.0 is available on the Itron.com customer center page or Itron Private Google Play Store.

## Resolved issue

This section lists one issue that was addressed in NFC 4.0.39.

### Intelis wSource NB-IoT

There was an issue with the data extraction feature failing and generating an incorrect error.

**Resolution:** This issue was fixed.
